

Universal Disruption

How to stay competitive in an ever changing environment

After three highly successful conferences, the RSM Alumni Local Chapter Germany would like to invite you to its fourth annual leadership weekend. This is once again a great opportunity to grow your network across the Alumni group in the DACH region and beyond, as well as to get inspired and develop your critical thinking around thought-leadership in business.

This year, we will focus the conference on “*Universal Disruption*”. On Saturday, our guest speakers will give you valuable insights into the concept behind the buzz word, as well as highlight different aspects of disruption and what it means for us as leaders, employees, entrepreneurs, and even from an organizational perspective. Besides we will deep-dive and debate how to best cope with constant change.

After an exciting day program we will enjoy a great evening at one of Munich’s finest dining restaurants. The weekend will finish with a relaxed and tasteful Sunday brunch - right in Munich’s city centre.

Be a part of the 2017 German RSM Alumni conference: listen, learn and contribute - and let other Alumni know about it, that you are in contact with - to make this year’s conference even better than the last ones!

RSM Alumni Local Chapter Germany
